

FRÉDÉRIC MAFFRAY

Curriculum vitae

Born on 19 August 1960 in Tours, France. High school in Tours.

Maitrise de Mathématiques Pures, University of Tours, 1981.

Doctorat de 3ème cycle, University of Paris 6, 1984. (Graduate work on kernels in directed graphs, supervised by Claude Berge and Pierre Duchet.)

PhD in Operations Research, Rutgers University, New Jersey, 1989. (Graduate work on perfect graphs, supervised by Peter Hammer.)

ACADEMIC POSITIONS

Post-Doctoral Fellow at the Department of Computer Science, University of Toronto, 1989-1990.

Junior Researcher at CNRS (National Center for Scientific Research), in:
— Laboratory of Discrete Structures and Didactics (1990-1995), Grenoble;
— Leibniz Laboratory, Institute for Computer Science and Applied Mathematics (1995-2006), Grenoble;

Now *Senior Researcher* at CNRS in:

— Laboratoire G-SCOP (since 2006), Grenoble, France.

Current research topics in graph theory: graph coloring problems, list-coloring, b-coloring, domination, perfect graphs, decompositions, structures, algorithms.

TEACHING EXPERIENCE

— Graduate course on Algorithms in Graph Theory, University of Toronto, 1989-90.

— Special Course on Perfect Graphs, Federal University of Rio de Janeiro, July 1991 (invited lecturer).

— 1st and 2nd Franco-Swiss Post-graduate course on Operations Research, Grenoble, France and Lausanne, Switzerland, Spring 1993 and 1995.

— Several graduate courses on “Graph Theory and Algorithms”, “Graph-Colouring and Perfect Graphs”, and “Applications of Graph Theory”, University of Grenoble, Operations Research program, yearly since 1991.

- Graduate course on “Elements of Graph Theory”, Dept. of Mathematics, University of Grenoble, 2000-2002.
- Graduate course on “Introduction to Graph Theory”, Telecommunications Dept., National Polytechnic Institute of Grenoble, yearly since 2000.

DOCTORAL STUDENTS

I have supervised the PhD thesis of:

- **Cláudia Linhares Sales** “Graphes Parfaits et Paires d’Amis” (defended in January 1996), now Professor in the Department of Computer Science, Federal University of Ceará, Fortaleza, Brazil.
- **Sylvain Gravier** “Colorations et Produits de Graphes” (defended in June 1996), now CNRS Researcher, Maths Institute, University of Grenoble, France.
- **Nicolas Trotignon** “Graphes Parfaits: Structures et Algorithmes” (defended in September 2004), now CNRS Researcher, Lyon.
- **Benjamin Lévêque** “Colorations de Graphes: Structures et Algorithmes” (defended in October 2007). now CNRS Researcher, Montpellier (France).
- **Ana Shirley Ferreira da Silva** “Le Nombre b-Chromatique de Quelques Classes de Graphes Généralisant les Arbres” (defended in November 2010), now Professor in the Department of Mathematics, Federal University of Ceará, Fortaleza, Brazil.
- **Grégory Morel** “Stabilité et Coloration des Graphes sans P_5 ” (defended in September 2011).
- **Laetitia Lemoine** (currently).
- **Lucas Pastor**, to be defended in November 2017.
- **Rémi de Joannis de Verclos**, to be defended in December 2017.
- **Luc Libralesso**, since October 2017.

Publications since 2009
